Art Unit 1644

### DETAILED ACTION

1. Applicant's communication, filed 11/6/00 (Paper No. 10), has placed this application in compliance with the Sequence Rules.

2. Restriction to one of the following inventions is required under 35 U.S.C. § 121:

I. Claims 1-20, 25-33, drawn to LM609-specific antibodies and fragments thereof and nucleic acids encoding said antibodies/fragments, classified in Class 530, subclass 387.1 and Class 536, subclass 23.53.

II. Claims 21-24, drawn to a method of inhibiting a function of  $\alpha_v\beta_3$ , with LM609-specific antibodies. treatment with antibodies, classified in Class 424, subclass 130.1.

3. Inventions I and II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (M.P.E.P. § 806.05(h)).

In the instant case, the antibodies as claimed can be used in a materially different process such as affinity procedures or detection assays.

The nucleic acids are not related to the methods of Invention II

4. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II and Groups I and II have acquired a separate status in the art as shown by their different classification and divergent subject matter, restriction for examination purposes as indicated is proper.

5. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed.

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).
